

Academic integrity declaration

By submitting work for assessment, I hereby declare that I understand the University's policy on academic integrity and the rules of the assignment as set by the subject coordinator regarding the use of artificial intelligence software, including editing and translation tools.

I declare that the submission is original and solely my work, and that I have not been assisted by another person (collusion) apart from where the submitted work is for a designated collaborative task, in which case the individual contributions are indicated. All sources and tools used have been appropriately cited or acknowledged, and any copied or modified code has been declared using the methods indicated by my subject coordinator.

Workshop 1: Oral Component 100 Points Possible

▼ Details

This is the oral component of Workshop 1. Workshop 1 runs Week 3–6 and involves implementation of and experimentation with various multi-armed bandit algorithms. In the oral component of the assessment, each team gives 10 minutes presentation of their work in Week 6 followed by a 5 minutes Q&A/discussion. You must make a presentation (pdf or powerpoint) with appropriate slides to present your solution to all the tasks in the workshop. Explain your solution and present your results. Please refer to the rubric for the grading criteria.
